Let us Learn

1 metre

Half of 1 metre is half a metre

THB

Divide children into two groups. Let them observe objects in the school and estimate if they are longer or shorter than half a metre. Then ask them to measure the actual length using a measuring tape.

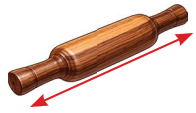

Let us Practise

Tick (✓) the correct option to find the length of the objects.

☐ Less than half a metre.

☐ More than half a metre.

☐ Less than half a metre.

☐ More than half a metre.

☐ Less than half a metre.

☐ More than half a metre.

☐ Less than half a metre.

☐ More than half a metre.

☐ Less than half a metre.

☐ More than half a metre.

☐ Less than half a metre.

☐ More than half a metre.

Let us Explore

Observe the length of the objects in your home and write their names in the table.

More than half a metre	Less than half a metre
