Athai, we will go to the camp tomorrow.

I'll come along with you, Amma.

Good. If you go, you can learn more about the camp.

How will we go there, Appa?

Well, your Amma knows the way!

But I want to find the way myself, Appa!

Alright then. I will draw you a map. Just follow it and you will reach!

THB

Discuss about the medical camps being conducted in the locality and in schools for the welfare of children, specifically, giving vaccinations, distributing nutritional supplements and conducting eye checkups.
