Let us Learn

Cloth merchants, tailors and carpenters use a tool to measure length. Do you know its name?

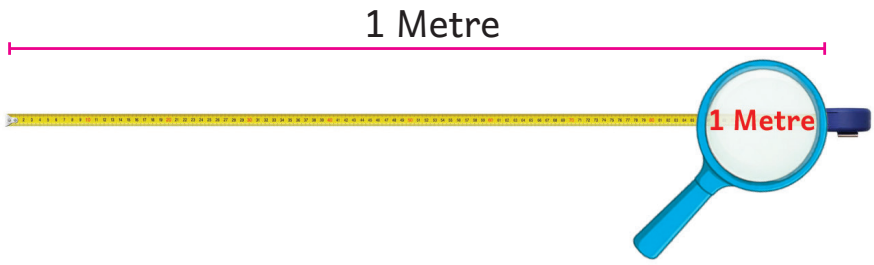

A standard unit called 'Metre' is used all over the world to measure the length of an object.

Measuring Tape

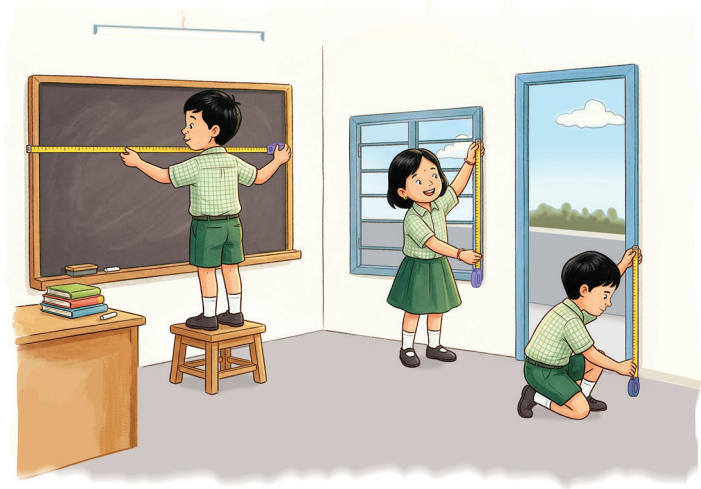

Introduce the standard unit 'Metre' using a measuring tape. Also, demonstrate how to measure the length of the objects using it.

Let us Practise

Measure the length of the objects in your class room using a measuring tape.

1. Blackboard ☐ metre
2. Classroom wall ☐ metre
3. Cupboard ☐ metre
4. Window ☐ metre
5. Verandah ☐ metre
