Let us Do

Ask the children to sit in a semicircle. Take 10 paper plates and tamarind seeds. Place 2 seeds on the first plate and introduce 1 × 2 = 2. Then place 2 seeds on the second plate and show that 2 × 2 = 4. Continue in the same way until 10 × 2 = 20 and introduce the multiplication table of 2.

Let us Practise

Complete the table.
