Do and Learn

1. Label the parts of a plant. Choose and write their functions.

Parts : Flower, Fruit, Stem, Leaf, Root.

Functions : Produces fruits and seeds.
Moves water and food through the plant.
Prepares food for the plant and for us.
Protects the seed.
Absorbs the water and holds the soil.

2. Draw on a sheet of paper.

Draw a garden with plants that have stems and leaves.	Make flowers using your fingerprints.	Make insects using your thumbprints.	Draw dotted lines showing insects flying from flower to flower.
