Seeds

Why are seeds so important to us?

Activity Time

Come along and sing with me!

Clap your hands! Stamp your feet!
What are the cereals we like to eat?
Rice, wheat, ragi, kambu!
Healthy cereals for you and me!

Clap your hands! Stamp your feet!
What are the pulses we like to eat?
Toor dal, green gram, black gram, chickpea!
Healthy pulses for you and me!

Clap your hands! Stamp your feet!
What gives oil for us to eat?
Groundnut, sesame, coconut!
Cooking oil for you and me!

Clap your hands! Stamp your feet!
What makes food good to eat?
Mustard, cumin, pepper, fennel!
Tasty spices for you and me!

Clap your hands! Stamp your feet!
They're all seeds! They're all seeds!

Wheat

Rice

Green gram

Toor dal

Groundnut

Pepper

Fennel

Ragi (Finger millet)

Chickpea

Kambu (Pearl millet)

Black gram

Coconut

Sesame

Cumin

Mustard

Many foods that we eat - cereals, pulses, oil seeds and many spices are seeds. They give us food today and can grow into new plants tomorrow.

THB Bring as many seeds as you can to class and show them to the children.
