Feelings Without Words!

Activity Time

Can you express feelings without words? (mime)

1. Mime the different feelings one by one.

THB Ask children to identify and name the feeling shown in the mime.

How did you identify the feeling?

We recognise feelings even when people don't talk.

We experience our feelings in our body - for example, when we are afraid we sweat.

2. Mime Malar's expressions.

3. Play the game ' Malar says'.

One child names feelings, other children mime them.

E.g., Malar says, "Angry".

Malar says, "Sadness".
