Preface

The Social Science textbook for Class 3 emphasises joyful learning, inquiry and meaningful engagement with the world around the child, in accordance with the vision and structure of the Tamil Nadu Curriculum Framework (TNCF) 2025.

As recommended in the Tamil Nadu State Education Policy, this textbook incorporates inclusivity, adherence to constitutional values, fostering of age-appropriate and critical understanding regarding caste, gender and diversity, the integration and comprehension of local traditions, environmental literacy, 21st century skills and socio-emotional learning.

Learning Progression

The book begins with familiar themes closely connected to the learner's life — self-identity, family, classroom and neighbourhood. Then it gradually expands to encompass broader topics, such as social institutions, cultural practices and the natural environment.

Unit 1: Sumathi's Friends

- Identifying one's strengths, interests and talents.
- Understanding the contributions of family members.
- Identifying helpful behaviours in the classroom.

Unit 2: In Sumathi's Town

- Identifying the people and places in their immediate surroundings.
- Understanding the activities taking place in nearby areas, such as primary health centres, library and police stations.
- Recognising the work of social care providers who are essential for our daily life.

Key Features of the Textbook

- Valuing students' perspectives.
- Providing opportunities to develop social skills.
- Ensuring their participation in the classroom.

Discuss and Learn

- Observe keenly and discuss.
- Discuss through questions.
- Discuss by making connections.

Let us Share

- Respecting diversity.
- Putting oneself in others' shoes.
- Express one's views confidently.

Let us Draw / Let us Sing / Let us Act

- Arts integration.
- Creativity.
- Collaborative Learning.

Let us Write

- Communication.
- Sequencing of events.
- Reflecting the ideas.

Competency-based Comprehensive Assessment

Assessment is intended to be competency-based comprehensive assessment, based on observation, participation and simple reflective activities rather than memorisation alone.

Assessment as Learning

Following each core theme, Learning Checks are conducted using multi-modal activities, including:

- Written test
- Oral question
- Project

Self-Assessment

At the end of each unit, students are provided with opportunities to self-assess their progress.

At this foundational stage, children begin to observe their surroundings with a structured approach, raise questions and develop an understanding of them. This Social Science textbook is expected to foster children's social curiosity, an appreciation for diversity and a sense of responsibility towards society and the environment.
