Let us Practise

Mark the numbers on the given line, subtract and write.

250 –125

250 - 125 = 125

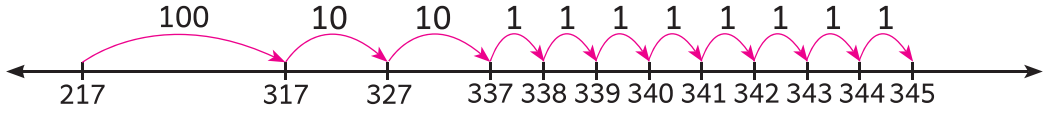

376 - 218

716 - 425

Find answer for the subtraction problems by moving forward on the line from the smaller number to the larger number.

345-217

100 + 10 + 10 + 1 + 1 + 1 + 1 + 1 + 1 + 1 + 1

100 + 20 + 8 = 128

345 - 217 = 128

432-314

823-645
