Let us Explore

Observe the objects in your house and write their names in the table.

More than 1 kilogram	Less than 1 kilogram

Let us Learn

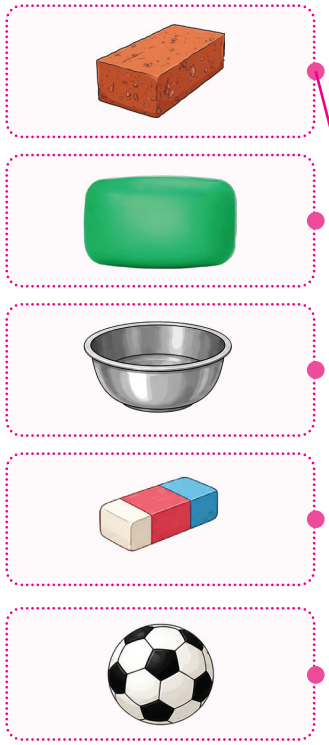

1 Kilogram = 2 half Kilograms

THB

Ask the children to observe the objects in the school. Let them guess which objects weigh more than half a kilogram and which weigh less than half a kilogram. Then, ask them to verify their guesses by measuring the objects using a simple balance.

Let us Practise

Guess and Match.

Less than half a kilogram

More than half a kilogram
