Plants In Our Lives

Why do we protect and conserve trees?

Observe and Discuss

Our lives are closely linked to trees and other plants.

THB Ask the children to observe the pictures and discuss.

Trees sustain life! Complete the sentences using the word bank.

WORD BANK air rain living beings soil water

a. Trees help bring _____.

b. Roots hold the _____ and prevent it from being washed away.

c. Most trees help the soil hold _____ .

d. Trees help keep the _____ clean by trapping dust.

e. Trees provide support for all _____ .

Trees give us food, clean air, water, healthy soil and rain. They support people, animals and all living things to live and grow.

Do you know?

Long ago, people named some villages and towns after the trees that grew there. We can find such names even today. Examples are Arasur, Mangadu, Navalur, Veperi. Can you guess what trees they are named after?
