Think and answer the following questions:

a. Which type of vehicle did you see the most? Why do you think so?

b. Which type of vehicle was seen the least? What is the reason?

c. Which vehicle carries the most people? How did you know this?

d. If there were no buses in your area, how would people travel?

2. Create a photo album, scrap book or poster showing the evolution of transportation from walking to aeroplanes, and display it in the art gallery.

Guide the children to complete the project by following the instructions in the teacher handbook.
