Do and Observe

1. Try This!

a. Your Observation

Which sponge is still wet?

- ◯ Covered sponge
- ◯ Uncovered sponge

b. Your Inference

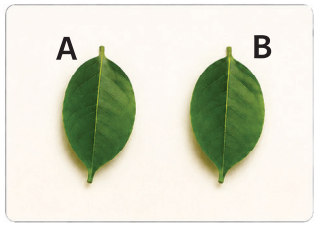

The cover helps the sponge to:

- ◯ stay wet for a longer time
- ◯ dry faster

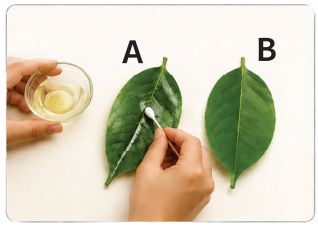

c. Your Correlation

Like the covered sponge, the thick outer covering of a cactus helps it _____. (make food / store water)

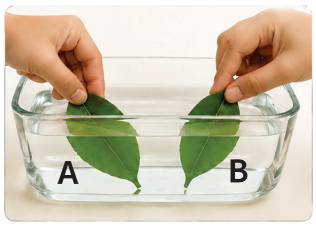

2. Try This!

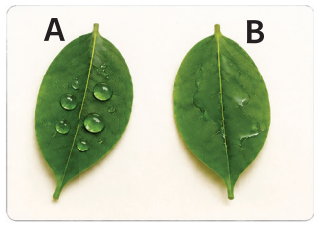

Take two leaves.

Apply coconut oil to leaf A only.

Dip both leaves in water and take them out.

Observe the leaves

a. Your Observation

Water rolls off the...

- ◯ Oiled leaf
- ◯ Leaf without oil

b. Your Inference

The oily surface helps to

- ◯ stops water from sticking
- ◯ absorb more water
- ◯ change the colour

c. Your Correlation

Like the oiled leaf, the waxy surface of a water lily leaf helps water to _____. (soak in / roll off)
