Do and Learn

1. Paper Flower Garland

Cut paper into squares.

Hold each piece at the centre and tie a knot with thread.

3 Do the same with all the pieces of paper.

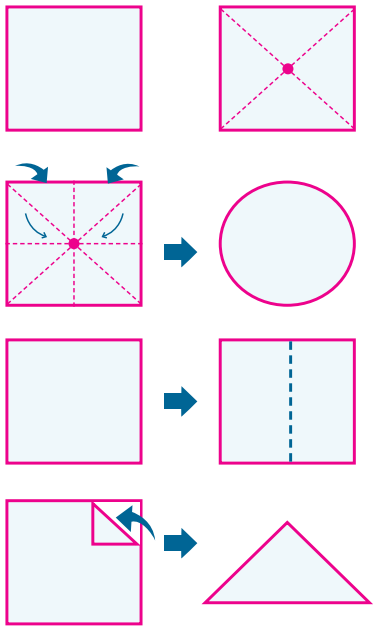

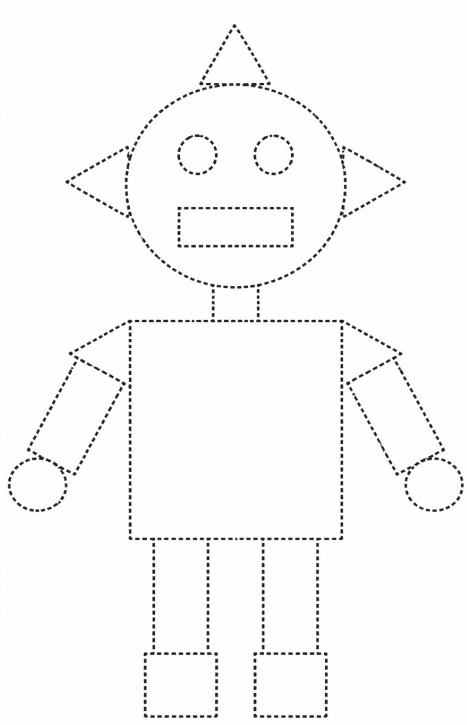

4 Now we have a paper flower garland.

THB Ask the children to try this in groups and try making a flower garland at home.

2. Paper Man

THB Help children fold paper in different sizes and shapes, paste them on a sheet and create a paper man.
