Let us Learn

Look at the wings of the butterfly. What do you think?

Do the wings of a butterfly match exactly?

THB Discuss the pictures and patterns which look the same on both sides and introduce 'symmetry'.

Let us Practise

THB Take a few pictures that have been cut into two equal halves and place them in a jar. Call the children one by one and ask each child to pick one half of a picture and find the other half from the rest of the children and match them. Then ask them to tell which of the pictures that are joined have symmetry.

Let us Practise

Colour the other half.
