Teacher: No. To stop riders from falling, a saddle is put on the horse. To stop horses from running here and there, blinkers are tied. So, riding is safe.

Mugilan: What other uses do horses have?

Teacher: They are used for travelling in the mountains, for safety and protection, for trade, for hunting and even for competitions. Travelling started with walking. Now it has grown to travelling by aeroplanes.

Did You Know?

Horses can sleep while standing up.
